A STRATEGIC PLATFORM UNITING INNOVATION WITH TALENT DISCOVERY

The **ASEAN 5G & OT Security Summit (5GOT) 2025** and **International Operational Technology Expo (IoT x) 2025** bring together industry leaders, innovators, and decision-makers to shape the future of 5G and OT security across the region.

As part of this premier gathering, the **Ipitch@cyber Innovation Pitching** serves as a dynamic satellite event, providing a vibrant platform for universities, TVET institutions, and industry players to bridge the gap between academic talent and industry needs, spotlight their groundbreaking innovations in IT/OT and 5G security, discovering the talent and empowering the next generation.

The Innovation Pitching Session is crafted to:

- Cultivate critical skills development
- Foster creativity, collaboration, and entrepreneurial spirit
- Ignite a passion for technological excellence

Young innovators, aspiring technologists, and future industry leaders will have an exclusive opportunity to pitch their ideas and solutions before a distinguished panel of industry experts, investors, and strategic partners.

Whether you are strengthening cybersecurity for critical infrastructure, redefining digital transformation through innovation. Now, this is your moment to shine!
